

Electrosmog - Should you be concerned?

We all depend on modern technology to keep us in touch and informed, but did you know there are safer ways of using much of this technology? First you need to know where the hotspots are by measuring them with a meter - EMF meter for electric and magnetic fields, and an A-COMED Electrosmog Detector for microwaves. Once you know what you are dealing with, there is a great deal you can do to protect yourself and your family.

For advice on reducing your exposure to electrosmog:
0845 450 5950 / 01453 752216
